| Actinide | Electrical conduction |
| Lanthanides and actinides. Annual survey of their organometallic chemistry covering the year 1994 1 | Structure and electrical conduction properties of phthalocyanine thin films 237 |
| Annellation | Group 5 |
| Azaanalogs of phthalocyanine: syntheses and properties 163 | Hydridotris(pyrazolyl)borato complexes of the Group 5 metals: inorganic and organometallic chemistry 201 |
| Azasubstitution | Hydridotris(pyrazolyl)borato compounds |
| Azaanalogs of phthalocyanine: syntheses and properties 163 | Hydridotris(pyrazolyl)borato complexes of the Group 5 metals: inorganic and organometallic chemistry 201 |
| Cage compound | Inclusion phenomena |
| Nitrogen-bridged macrocycles: synthesis, structures and inclusion phenomena 183 | Nitrogen-bridged macrocycles: synthesis, structures and inclusion phenomena 183 |
| Cisplatin | Lanthanide |
| Structural aspects of Pt complexes containing model nucleobases 275 | Lanthanides and actinides. Annual survey of their organometallic chemistry covering the year 1994 1 |
| Cluster chemistry | Macrocycle |
| Annual survey of organometallic metal cluster chemistry for the year 1994 91 | Nitrogen-bridged macrocycles: synthesis, structures and inclusion phenomena 183 |
| Coordinated oxime | |
| Metal-ion assisted reactions of oximes and reactivity of oxime-containing metal complexes 333 | |

- Metal-DNA interaction
 - Structural aspects of Pt complexes containing model nucleobases 275
- Nitrogen bridge
 - Nitrogen-bridged macrocycles: synthesis, structures and inclusion phenomena 183
- Nucleobase
 - Structural aspects of Pt complexes containing model nucleobases 275
- Organometallic chemistry
 - Lanthanides and actinides. Annual survey of their organometallic chemistry covering the year 1994 1
- Organometallic chemistry
 - Annual survey of organometallic metal cluster chemistry for the year 1994 91
- Oxime
 - Metal-ion assisted reactions of oximes and reactivity of oxime-containing metal complexes 333
- Oxime-containing metal complex
 - Metal-ion assisted reactions of oximes and reactivity of oxime-containing metal complexes 333
- Phthalocyanine
 - Structure and electrical conduction properties of phthalocyanine thin films 237
- Phthalocyanine azaanalogue
 - Azaanalogs of phthalocyanine: syntheses and properties 163
- Platinum complexes
 - Structural aspects of Pt complexes containing model nucleobases 275
- Structure
 - Structure and electrical conduction properties of phthalocyanine thin films 237
- Structure and bonding
 - Transition metal tetrahydroborato complexes: an orbital interaction analysis of their structure and bonding 139
- Tetrahydroborato complexes
 - Transition metal tetrahydroborato complexes: an orbital interaction analysis of their structure and bonding 139
- Thin films
 - Structure and electrical conduction properties of phthalocyanine thin films 237
- Unit cell dimensions
 - Structure and electrical conduction properties of phthalocyanine thin films 237
